**Methods@Manchester - What is…?**

A regular series of lunch-time talks which provide short, accessible introductory guides to key research methods. These talks are ideal for research students - or their supervisors - who want to find out what the method does and whether it might be useful in their research. They will also be of interest to any member of staff who is curious to find out about a new method. You might also like to have a look at the methods videos for summaries of talks on Social Sciences Research methods.
