

The role of the TA Representative

Each School will have at least one TA Representative to act as liaison between TAs and full time members of staff. It is suggested that Schools devolve the role into discipline areas so there may be a number of representatives within each School at any one time. It is expected that the TA Representative role will incorporate the following:

- Act as a liaison between TAs and TA Coordinator and the Professional Support Services TA Coordinator
- Attend departmental meetings within their School when required and feedback relevant information to TAs
- Provide TA input where required in the development and planning of teaching
- To accurately represent the views of the TAs at Faculty and School level
