

CLOSER's resources for teaching and research

Professor Alison Park, Director

Session 2

Focus on resources for researchers

- CLOSER Discovery
- Harmonisation and data linkage resources

About CLOSER

- Objective: to maximise the use, value and impact of the UK's longitudinal studies
- Consortium: 8 longitudinal studies, the British Library and the UK Data Service
- Funded by the ESRC and the MRC

Hertfordshire Cohort Study

MRC National Survey of Health and Development

1958 National Child Development Study

1970 British Cohort Study

Avon Longitudinal Study of Parents and Children (ALSPAC)

Southampton Women's Survey

Millennium Cohort Study

Understanding Society: UK Longitudinal Household Study

1930 1950 1970 1990 2010

Key areas of CLOSER's work

- Guidance and exemplar studies on data harmonisation and data linkage
- Promoting value of longitudinal research
- Training and capacity building: Learning Hub
- Data discovery: CLOSER Discovery

CLOSER Discovery

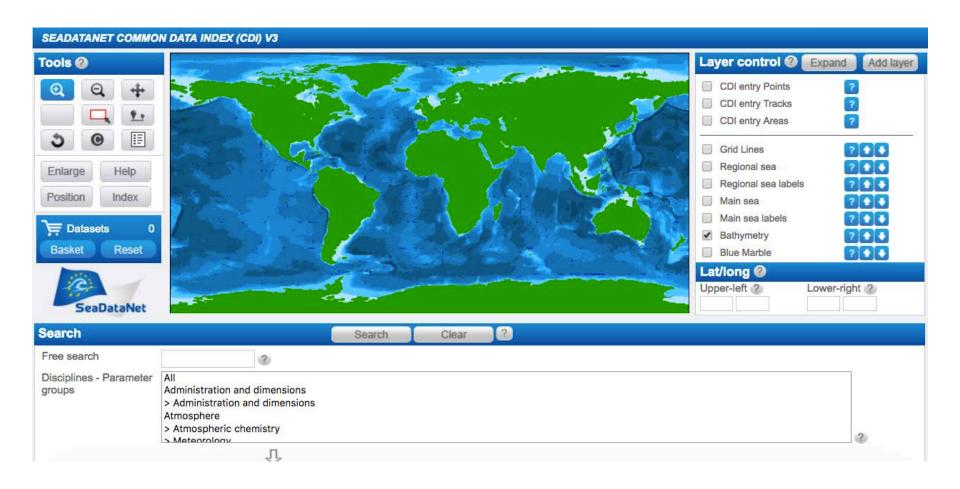

Will Poynter
Technical Manager
14th September 2017

Metadata

- "What do you understand by the term 'metadata'?"
 - "data about data"
- What is the difference between data and information?
 - Context
- What gives data context?
 - Metadata
- Metadata + Data = Information

Example

Fields	Units	Data
Eye colour		Brown
Shoe size	Paris points	42
Height	Centimetres	175
Favourite colour		Green
Condition		Handsome

Large amount of information

- 8 studies
 - •> 80 sweeps
 - •> 400 instruments
 - •> 100,000 questions
 - •> 450 datasets
 - •> 120,000 variables

The solution

CLOSER Discovery

CLOSER Discovery

- Search engine
- International standards (e.g. DDI-Lifecycle)
 - Comparable
 - Consistent
- Enhanced search-ability
 - Topics
 - Life stages
 - Equivalencies

Data harmonisation

Height, weight and BMI

Socio-economic status

Use/collection of biological samples

Measures of vision

Childhood environment and adult wellbeing

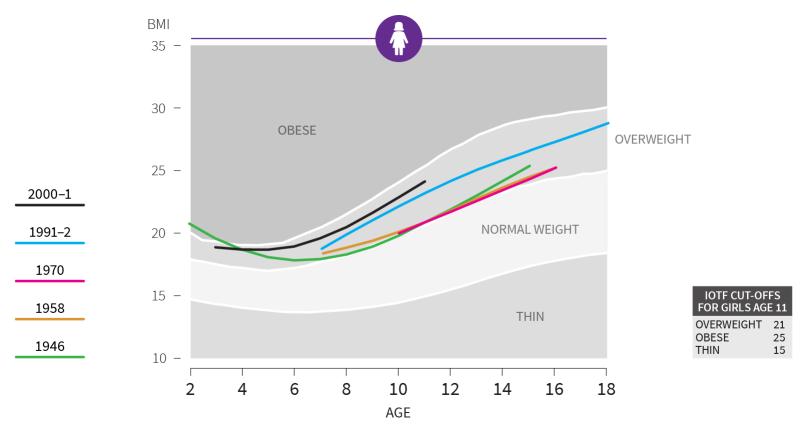

Review of methods for determining pubertal status

Exploiting CLOSER biomarker data

Overcrowding and health

Tracking the rise of obesity in the UK (91st percentile)

Reference

Johnson, W., Li, L., Kuh, D., & Hardy, R. (2015). How Has the Age-Related Process of Overweight or Obesity Development Changed over Time? Co-ordinated Analyses of Individual Participant Data from Five United Kingdom Birth Cohorts. *PLOS Medicine*, e1001828. Contact: Rebecca Hardy rebecca.hardy@ucl.ac.uk

Harmonisation resources

- Harmonised datasets available via UKDS, with documentation
- Future outputs drawing out learning from across CLOSER's harmonisation work
- Further harmonisation projects during 2017-2019
- Training events eg cross-study harmonisation

Data linkage

Economic and education data

Geographic data

Hospital Episode Statistics

Data linkage in cohorts and longitudinal studies

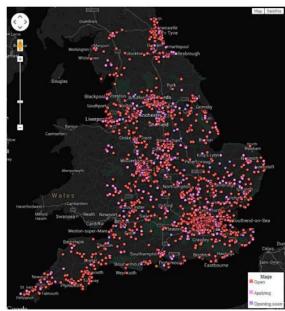

Longitudinal analysis of schools

Data linkage resources

- Outputs as part of ongoing data linkage coordination and advocacy
- Schools database
- Dataset linking P14 employment data (HMRC) to birth cohort data
- Training events (eg workshop on linking study data to geographic variables)
