Third in a series of one day workshops 30 November 2012

The cities@manchester website (www.cities.manchester.ac.uk) demonstrates the depth and breadth of research being done in and on the Manchester city region by researchers across the University. This third one day workshop builds on the two earlier in the year to bring together those of us working on the Manchester city region, and provides an opportunity to hear about each other's work, and to continue to explore possible overlaps and synergies between what we are doing, with a view to the pursuit of future joint bidding and writing projects.

Transforming Manchester Workshop III: November 30 2012

G30/G31, Arthur Lewis Building

Time	Theme	Speaker	Title
