WORKSHOP 2: MAY 16 2012

The cities@manchester website (www.cities.manchester.ac.uk) demonstrates the depth and breadth of research being done in and on the Manchester city region by researchers across the University. These two one day workshops will bring many of us working on the Manchester city region together, and provide an opportunity to hear about each other's work, and to begin to explore possible overlaps and synergies between what we are doing, with a view to the pursuit of future joint bidding and writing projects. The first workshop was held on 26 January, 2012.
