MANCHESTER INTERNATIONAL SUMMER SCHOOL

10-30 July 2016

Join the Manchester International Summer School (MISS) in July 2016 for a three-week course which allows you to explore British culture and history, and discover contemporary Manchester and its region.

Two hundred years ago the modern world began in Manchester. In this city, entrepreneurs and workers created the economic and political structures of modernity. Simultaneously, political thinkers, social reformers, artists and writers sought to understand the significance of those changes. What happened in Manchester between 1750 and 1850 changed the world. MISS is your chance to explore and understand Manchester's significance as a world-historical city.

MISS is a multi-disciplinary course which explores British culture and history through the prism of Manchester and its region. You will gain knowledge of:

- how industrialisation changed everything – from how we work and where we live, to what we do in our leisure time.
- which ideas and social movements Manchester exported to the world.
- how Manchester's architecture reflects its history and how visual artists responded to the new industrial order.
- how what happened in Manchester impacted on the Bronte sisters in Haworth.

“ It was great being in a class with lots of different students, we learn as much from each other as from the course. ”
Rafael Iandoli Cardoso de Almeida,
Universidade de Sao Paulo
