## **Innovation in policing workshop**

Andrew Staniforth

Head of West Yorkshire for Innovation

Office of the Police & Crime Commissioner for West Yorkshire

There are many innovative approaches outlined in the West Yorkshire for Innovation Annual Review; I would encourage West Yorkshire for Innovation to keep spreading the word and having conversations with counterparts in law enforcement agencies across the country about how these can be applied elsewhere.”

**Q1.**

**What is 'innovation' in the  
context of policing?**

- **Change** – involving a positive alteration to methods, practices, delivery or outcomes;
- **Original** – being fresh, new and unique; and
- **Programmed** – being purposeful with a defined objective and clear outcome.

**Q2.**

**What are the barriers to  
innovation in policing?**

**Q3.**

**How do you currently  
innovate?**

**“The ability for a Police Service to create, change and transform will increasingly differentiate between those Forces who lead, with those who simply follow behind. Adopting an innovative approach to policing and community safety is therefore imperative, not only to realise the benefits from opportunities and to prepare for new and emerging challenges and threats, but also to improve the efficiency and effectiveness of the service we deliver.”**

**Q4.**

**How can we create an  
innovative workforce of the  
future for policng?**
