

**The PC- aided Enterprise and Re-cycling ICT**  
**An ICT for D Story?**

**Nimmi Rangaswamy**  
**Microsoft Research India**

# The Research Field: The Slum Ecology

## Definition of a Slum

- 
- **Steady Immigrant Presence**
  - **Mixed neighborhood**
  - **Metro-core Location**
  - **Small Scale Industry Hub**

# Subject: The PC-aided Small Enterprise

---

- MSE- Micro and Small Business
- PC as Centre of Business
- Small Entrepreneur

# Subject: The Slum Ecology

- Emerging ICT Consumption
- Path to New Technology Immersion
- Alternate Infrastructure

# Theoretical Frameworks

---

- ◉ ICTD- Inclusion lens
- ◉ Social constructions of technology (SCOT) & Mediation of technology (BOT)
- ◉ MSE as Infomediaries (Duncombe & Heeks)
- ◉ Repair Cultures ( Thrift )

Behram Baug | Mumbai | Suburban Slum

50000 population | 10000 hhlds | 1 km Radius

---

- PC-related business nodes
  - Cyber Cafes
  - PC assembly enterprises
- Computer skill-training enterprises
- PC-aided services
  - On-line agency for ticketing/bill payments
  - Mobile phone handset repair and software servicing
- PC- based services
  - Photo studio
  - Lottery tickets sales

# Methodology

---

***Focus on the entrepreneur***

Context	Shop Owner	Business practice	Suburban Slum
30 Shops	Interviews	Observations	Context surveys

# Findings

---

- **The PC-aided Service Node**

- Servicing demand

- Digital Photo
- E-mail
- Ticketing
- Utility Bills
- Re-charge
- Phone Repair
- Updates
- Assembled PC
- Computer Education

# Findings

---

- ◎ 'Making do' with available capital.
  - Space, Hardware, Labour
  - Economies of scale
  - Supply chains
  - Demand routes
  - Client-base
  - Legal issues

# Findings

## Local Structures of Low-cost Skill Acquisition

- Self-skill building practices.

# Discussion

- **Re-cycling Hardware**
- **Skill Building Resources**

# Discussion

## Expanding Enterprise

## The Telecom Service Centre

# Discussion

---

- Micro-entrepreneurship not as a simple assimilation of technology aiding business
  - creative and adventurous venture
  - attracting technology
  - disbursing appropriate services
  - effective consumer adoption and use.

# Main Findings: PC-aided MSEs

---

- ◉ Self-sustaining
- ◉ Promote self- skill building
- ◉ Re-cycle technology
- ◉ Aid greater affordability
- ◉ Aid effective immersion.

# Main Findings: PC-aided MSEs

---

- Small biz are hybrid spaces of formal and non-formal networks
- ICT, arguably, only connector of shifting socio-economic capital
- Co-expansion of ICT use, networking and business potential

# Thank You!
